"Wallace Roberts & Todd holds the highest level of respect in the Philadelphia community for its pioneering work in environmental design and urban planning. Your firm and its leaders have provided countless hours of community support and intellectual and design leadership for this community."

John P. Claypool, AIA, AICP
Executive Director
AIA Philadelphia

I. BRIEF HISTORY

Wallace Roberts & Todd, LLC (WRT) is an interdisciplinary planning and design practice with offices in Philadelphia, PA; Lake Placid, NY; Coral Gables, FL, Dallas, TX, and San Diego and San Francisco, CA. For forty-one years, the firm's landscape architects, architects, urban designers and planners have worked collaboratively on projects for both public and private sector clients.

An Environmental Ethos

Since its inception in 1963, WRT's foundation has been the belief that cities and regions are interdependent entities that can be integrated through rational, environmentally-based planning and design processes that require the participation of multiple skills and disciplines. A corollary to this foundation is the belief that open space resources are the defining element of such integration, requiring of landscape architecture a position of leadership and advocacy.

Beginning with Ian L. McHarg, FASLA and William H. Roberts, FASLA, two of the firm's founding principals, and through a new generation of landscape architect principals, WRT maintains today a position of international prominence in the advocacy and practice of environmentally responsible design.

To reinforce this position, internally and externally, the firm is currently managed by a landscape architect principal, Paul Rookwood, ASLA, whose agenda is the continuing development and integration of green design into the firm's core disciplines of landscape architecture, architecture, urban design, and planning. To make this philosophy operational, the firm has in place a Green Council charged with researching and teaching green design techniques so that they may be applied comprehensively on projects throughout the firm.

We value the urban landscape as much as we value the natural landscape. Our goal is to see both flourish so that future generations are able to appreciate the achievement of cities within the context of preserving and enhancing natural resources.

Award-winning work

The firm has won 180 awards for planning and design excellence from ASLA, AIA, APA, government agencies and various institutions. Nearly a quarter – a total of 41 – of our awards have been conferred by ASLA, including national, state, and local chapters. These awards are a testament to the consistent application of ongoing principles which protect and celebrate the natural environment, integrate professional disciplines of landscape architecture, architecture and planning, and also express the culture of a place and its people. The firm's contributions go beyond its substantial portfolio to include a finely honed working process that has always emphasized collaboration in a search for excellence. Project examples can be seen in other sections of this submission.

Pushing the Boundaries of Landscape Architecture

Landscape architecture at WRT has always been approached as part of a larger continuum of environmental planning and design. Meaningful collaboration has enabled many of the principles and practices of landscape architecture to expand and influence other disciplines, and by so doing, broaden its reach and impact.

QUICK FACTS:

- Founded 1963 as Wallace McHarg - Roberts & Todd
- WMRT Reorganized in 1981 as Wallace Roberts & Todd
- Reorganized in 2000 as Wallace Roberts & Todd, LLC
- Six offices nationwide
- 180 Awards in 41 years of practice
- 41 ASLA Awards
- Led by Paul M. Rookwood, ASLA, managing principal
- 4 of the firm's 6 offices are led by Landscape Architects
- 5 of 18 principals are Landscape Architects

"They have the unique ability to engage creatively and substantively with the campus community environment as well as interacting with all the professionals representing different disciplines. Their ability to pull these various components together and coalesce the group into a consolidated objective has made WRT extremely valuable for the university. There is no question in my mind that WRT represents the penultimate of a landscape design firm, and our campus is all the better as a result of their involvement..."

M. Boone Hellmann, FAIA
Vice Chancellor for Facilities
Design & Construction
And Campus Architect
University of California, San Diego

Whether introducing a landscape sensibility to urban design projects or thinking differently about traditional landscape projects, the firm's approach has not only given our professionals a chance to fully explore their creative potential, but has resulted in better projects for our clients

WRT's pioneering spirit infuses our practice to this day, transforming introspection into inventive new ways of serving our clients while remaining true to our collective values.

Collaboration – by design

The idea of interdisciplinary collaboration is structurally embedded in the firm's organization, in the form of shared areas of practice, or Affinity Groups. Drawing professionals from all offices and the core disciplines, Affinity Groups coalesce around specific areas of practice: Comprehensive Planning, Housing and Community Development, Campus Environments, Urban Places, and Parks & Open Spaces. The Groups meet annually to critique the work and derive new and innovative ways to advance the firm's environmental ethos.

Advocacy – publishing, teaching and civic and professional involvement

In the four decades that have transpired since the firm was first established, WRT's advocacy of landscape issues has been manifested in:

- university chairmanships and teaching assignments
- publications of a critically acclaimed book (*Design with Nature*)
- seminal articles in trade publications on topics ranging from Planning for Bio-Diversity to Landscape Urbanism
- participation in multiple national ASLA planning and design award programs;
- involvement in major competition juries (Oklahoma Bombing Memorial)
- membership in Planning Commissions, Design Review Boards and Design Advisory Panels nationwide
- active participation in the Landscape Foundation, the Board of Trustees of the American Society of Landscape Architects, the CEO Roundtable, and the U.S. Green Building Council.

2. LIST OF THE FIRM'S ACHIEVEMENTS

Innovative & Sustained Practice:

In establishing the practice forty years ago, WRT's founders pioneered a number of methods and principles, that have become almost commonplace in today's practice:

- "A truly multidisciplinary approach to projects—one that joins landscape architects with allied professions in developing innovative solutions to client's problems.
- "Emphasis on an ethos rather than a particular "signature" aesthetic to unify the firm's body of work.
- "A pluralistic practice that relies on the collaboration of professionals (rather than a few dominant individuals).
- "A commitment to sustainable design and planning, uniting the natural and cultural environments to better shape patterns of human habitation.

Outstanding Projects:

- An extensive and varied portfolio of projects in which Landscape Architecture has played a leadership role - extending the influence of the profession into the disciplines of urban design, planning and architecture.
- The firm's projects have won 180 awards in its 41 years of practice - these awards have been conferred by professional peers, the public and others within the design and construction industry. Nearly a quarter (41) of these awards have been conferred by ASLA, including national, state and local chapters.

Academic Contributions

The firm's origins are linked to the University of Pennsylvania and Drexel University, institutions for whom many of our principals teach.

- "Links with the academy, both to nurture the development of young practitioners and to continually refresh the firm's project work with new ideas and talent.
- "All of the landscape architecture principals teach or have taught at major universities.

William H. Roberts, FASLA
 Faculty, University of Pennsylvania
 1963 – 1976
 Chairman of Dept, University of
 Pennsylvania
 1976

Lecturer, Harvard University, *The Boston
 Architecture Center*, 1972-1973

Paul M Rookwood, ASLA, AICP
 Studio Critic, U of Penn (ongoing)

Ignacio F. Bunster-Ossa, ASLA
 Visiting Critic, University of Miami, Harvard
 University and University of Pennsylvania

Kathleen A. Garcia, ASLA
 Studio Guest Critic, U.C. Berkeley
 1983, 1985

Gerald Marston, ASLA
 Associate Professor of Landscape
 Architecture, Ohio State University,
 1973- 1981

Scholarships and Internships by WRT
 U of Penn Student Scholarship and Internship
 Program

Design Critic, Harvard University, Graduate
 School of Design,
 1972, 1973

 Kathleen A. Garcia, Board Member 1991 - 1995
 Laura A. Burnett, President 2000

LAF Contribution \$30,000

CEO/ASLA Roundtable
 William H. Roberts
 Paul Rookwood current

ASLA Annual Meetings/Presentations, panels, etc.
 William H. Roberts 1997, 1998
 Ignacio F. Bunster-Ossa 1994

Landscape Architecture Magazine
 Ignacio F. Bunster-Ossa
 Columnist - Point Counter Point 1997 - 1999

- William Roberts, in particular, has demonstrated leadership over the years at the national level, guiding the ASLA CEO roundtable in tackling issues facing the profession as a whole. Our current managing principal, Paul Rookwood, now serves on this board.

Community Service

Our professional commitment extends beyond ASLA and the profession and into the community at large.

- WRT landscape architectural professionals are encouraged to serve on boards, commissions and community activist organizations to promote excellence in design and planning. Kathleen Garcia, ASLA, Principal, for instance, is the first landscape architect ever to serve on the City of San Diego Planning Commission, a mayoral appointment.

To Local Park Systems:

Fairmount Park Foundation Board
 William H. Roberts current

Penjerdel Regional Council
 Executive Committee and Board
 William H. Roberts current

To Universities:

UCSD - Chair, Design Review Board
 Ignacio F. Bunster-Ossa 1991 - 2000

UCSB - Member, Design Review
 Committee
 Ignacio F. Bunster-Ossa 1999

California Polytechnic San Luis Obispo
 Landscape Architecture Advisory Council
 Kathleen A. Garcia 2001 -2004

To Cities and other Organizations:

Oklahoma City Bombing Memorial, Juror
 Ignacio F. Bunster-Ossa 1997

Southeast San Diego Redevelopment Board
 of Directors
 Kathleen A. Garcia 1997 - present

City of San Diego - Chair, Old Town Design
 Review Board
 Kathleen A. Garcia 1994 - present

City of San Diego - Planning Commissioner
 Kathleen A. Garcia 2001 - present

- The firm's landscape architects have taken a leadership role in sustainable design organizations, in particular local chapters of the U.S. Green Building Council.
 - In San Diego, David A. Gal, ASLA, Associate is a board member of the local chapter of the USGBC and is among the team of professionals that founded it.
 - In our Coral Gables office, Carolyn Mitchell, ASLA is initiating efforts to found a local chapter of the USGBC.

3. BRIEF BIOGRAPHY OF ALL FIRM PRINCIPALS

Landscape Architect Principals

Ignacio F. Bunster-Ossa, ASLA

Ignacio is a landscape architect and urban designer whose work is consistently recognized for design innovation. He is a leading practitioner of Landscape Urbanism, an approach to urban design based on the fusion of ecology, community identity, infrastructure, recreation, and public art. Ignacio is a Harvard Loeb Fellow and periodically lectures, teaches, writes, and serves on design award juries.

Education: B. Arch, University of Miami, 1975; MLA, University of Pennsylvania, 1979; Loeb Fellowship, Harvard University, 1992-1993.

- Director of the firm's Urban Places Affinity Group
- Contributing Editor, ASLA Magazine
- Member, LAF Joint Futures Initiative
- Current Board Member, Landscape Architecture Foundation

Kathleen A. Garcia, ASLA

Kathy directs WRT's San Diego office. She leads major landscape architectural, planning, and urban design commissions, from campus plans to waterfront redevelopment projects. In addition to her award-winning project work, Kathy is active in a number of professional and civic organizations, and currently serves on the San Diego Planning Commission. Education: BA, Landscape Architecture, University of California, Berkeley, 1978; MLA, Harvard University, 1982.

- Planning Commissioner, City of San Diego (first landscape architect ever appointed)
- Directs WRT's San Diego office - 15 years
- Chair, WRT Green Council - current

Gerald Marston, ASLA

A respected and talented landscape architect, Gerry is one of the firm's key designers. His work focuses on creating vibrant environments related to resort tourism, urban redevelopment, and institutional settings. Known for his creative ideas and award-winning projects, Gerry has an unusual ability to envision the potential of a site and inspire his clients to create places that transcend expectations. Education: BS, Landscape Architecture, Michigan State University (with honors), 1969; MLA, Harvard University, 1972.

- Leads landscape architecture practice of WRT's Coral Gables office
- Former faculty of Department of Landscape Architecture, Ohio State University

Paul M. Rookwood, ASLA, AICP

Managing principal of WRT, Paul sets the strategic direction and oversees the operations of the firm. His commitment to creating sustainable environments is reflected in his leadership of the firm and as well as in his project work. A planner and landscape architect, Paul brings a diversity and depth of experience to his projects. His expertise includes policy planning, large area conceptual plans, and detailed design of new parks and greenways. He teaches planning at the Graduate School of Fine Arts at the University of Pennsylvania. Paul's work explores the functions and aesthetic expressions of a human ecology in which nature and culture are seen as inextricably linked components of the same system. Education: Graduate Diploma, Landscape Architecture, Gloucestershire College of Arts and Technology, UK 1985; BA, Landscape Architecture, Gloucestershire College of Arts and Technology, UK 1984; MLA, University of Pennsylvania, 1988.

- Managing Principal of WRT — sets strategic direction and oversees firm's operations, nationwide.
- Member of the CEO Roundtable (current)
- Advocate for sustainable design

3. BRIEF BIOGRAPHY OF ALL FIRM PRINCIPALS

Landscape Architect Principals

William H. Roberts, FASLA

One of the firm's founders, Bill has had a significant influence on the firm and its work as well as on the broader field of landscape architecture. A pioneer in extending the boundaries of landscape architecture to address wider planning and urban design challenges, he brings to his projects a seasoned wisdom and an unusual gift for design that artfully addresses both pragmatic and aesthetic issues. Bill was on the faculty of the University of Pennsylvania's Graduate School of Fine Arts for 12 years and has been active on boards and committees of institutional and professional organizations related to planning, design, and conservation. Education: Diploma in Architecture with Honors, University of Wales, 1957; MLA, University of Pennsylvania, 1960.

- Co-founder of WRT and leader of many of its award-winning projects
- Former faculty and chair of Landscape Architecture at the University of Pennsylvania.
- CEO Roundtable, member and former chair

3. BRIEF BIOGRAPHY OF ALL FIRM PRINCIPALS

Principals – Other Disciplines

Richard Bartholomew, FAIA, AICP, PP

An urban designer, architect, and planner, Richard has directed many of WRT's major projects during his 30-year career. His professional practice has been enriched by active involvement in civic and professional organizations and through his teaching at the University of Pennsylvania's Graduate School of Fine Arts, where he served on the faculty from 1974 to 1992. Richard Landscape Architect serves on the management council that guides the work and growth of our Philadelphia office.

John Beckman, AICP, PP

One of our leading planners, John is known for his ability to integrate multiple perspectives into successful implementation strategies creating project solutions with long-term environmental, cultural, economic, and political sustainability. His work is characterized by unusual energy and insight into a wide range of planning issues. John's practice includes award-winning projects in urban and community planning, development and redevelopment for public and private clients, as well as campus planning.

Elizabeth Clarke, AICP

Liz has been a leader in WRT's environmental planning practice for 25 years. She directs the firm's Lake Placid office whose practice focuses on working with communities and landowners to protect community character, historic resources, and sensitive natural lands.

3. BRIEF BIOGRAPHY OF ALL FIRM PRINCIPALS

Principals – Other Disciplines

John Fernsler, AIA

Leader of our comprehensive planning practice, John has led major community planning and growth management efforts in diverse settings nationwide, including environmentally sensitive areas, communities known for their outstanding quality of life, and growing communities striving to contain sprawl. He also creates strategies for revitalizing and redeveloping downtowns and waterfront resort areas. John is particularly adept at creating consensus among competing interests and in communicating Smart Growth planning concepts to diverse audiences.

Antonio Fiol-Silva, AIA, AICP

An architect and urban designer with a wealth of experience in public - private partnerships, helps clients tap into and enhance the vitality of cities. His designs for buildings and civic spaces engage their surroundings, create synergy with adjacent uses and help to attract reinvestment. Antonio's work includes projects for the City of Charlottesville, the Georgia Institute of Technology, and he is currently overseeing a major planning initiative for the U.S. House of Representatives and the South Capitol Area in Washington, DC.

David Hamme

A planner and strategist, David's career includes teaching, professional practice, and leadership of the firm. Currently the director of WRT's Philadelphia office, David oversees its operations. He has designed and executed a number of large-scale transportation and land use planning studies. In his varied roles, David has been instrumental in developing planning techniques such as the Synthesis of Natural Factors, the Susceptibility to Change Model, the Probability Growth Model, the Social Cost Evaluation Process, and Growth Monitoring Models—techniques that have been applied successfully to projects. David also teaches planning at Drexel University and the University of Pennsylvania.

Joseph W. Healy, AIA, LEED™, AP

Joe has more than 20 years of experience as an architect, and has overseen many of the firm's heritage-related projects. His technical skills, design subtlety, and careful management ability enable him to make even the most complex assignments successful. Joe is committed to the advancement of sustainable design practices and currently serves on the programs and education committees of the Delaware Valley Green Building Council, a chapter of the U.S. Green Building Council.

Richard Huffman, FAIA

An urban designer with a background in both planning and architecture, Richard has earned a national reputation in urban redevelopment planning. His work for public and private-sector clients has led to successful reinvestment in major cities throughout the country. Richard has taught in the Graduate School of Fine Arts at the University of Pennsylvania and has lectured nationally on urban design and redevelopment. He is a full member of the Urban Land Institute and serves on the board of the Central Philadelphia Development Corporation.

C. Alyn Pruett, AIA

Alyn is an architect, urban designer, and planner with more than 20 years of experience in planning for a wide variety of institutions, colleges, and universities nationwide. Leader of WRT's specialized campus planning and design practice, he is involved in identifying institutional trends and crafting new approaches to address them. Alyn's experience also lends itself to complex community planning and design assignments and has led several of the firm's HOPE VI projects.

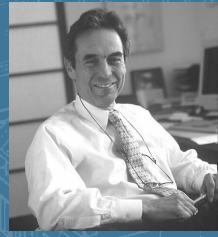

3. BRIEF BIOGRAPHY OF ALL FIRM PRINCIPALS

Principals – Other Disciplines

Gilbert A. Rosenthal, AIA

A skilled planner and award-winning architect, Gil has been instrumental in forging the firm's practice in community planning and design. He has revitalized inner city neighborhoods with affordable housing, expanded college and private school campuses with new student life facilities, and added community centers and senior living facilities to cities around the country. Gil is a principal of the firm and is frequently invited to present and write about his work.

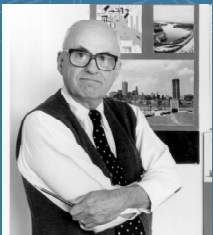

Daniel Solomon, FAIA

Dan is an architect and urban designer whose 35-year career combines achievements in professional practice with academic pursuits of teaching and writing. He is the founder of Solomon E.T.C., now a WRT company, and the principal author of its many award-winning projects. Residential architecture and the interaction between housing and urban design have been the main focus of his work. His commitment to urban repair and the construction and reconstruction of urban neighborhoods extends beyond his project work; Dan was one of the co-founders of the Congress for the New Urbanism, an organization whose principles have shaped the contemporary practice of community design.

Charles Tomlinson, AIA, CSI, CDT

Charlie has more than 35 years of experience as an architect and has led some of the firm's most complex and innovative architectural assignments. Charlie also oversees the firm's technical architectural services and serves on the management council that guides the work and growth of our Philadelphia office. Charlie is committed to the advancement of sustainable design practices. He is president and a board member of the Delaware Valley Green Building Council and was instrumental in establishing it as a chapter of the U.S. Green Building Council.

David A. Wallace, EFAIA, AICP, PP

A founder of the firm, Dave has set the tone and framework for the WRT's achievement and growth. As a professor and a practicing architect and planner, he has focused on urban design as the discipline that embraces the characteristics and interrelationships of all elements and dynamics of 4-dimensional urban form (including time). Though he retired in 1992, he continues to consult with the firm's planning and urban design practice. His contributions to the field of planning—evident through his teaching, innovative ideas, and pioneering work in cities such as Baltimore and New York—earned him the national American Planning Association's Distinguished Leadership Award for a Professional Planner in 2003.

4. SUPPORTING MATERIALS

The firm has won 180 awards for its work, 41 of them from ASLA. Here is a partial list focusing on those from the ASLA. They are arranged chronologically.

The 1970s

Pontchartrain New-Town-in-Town New Orleans, Louisiana

- Merit Award / 1973
American Society of Landscape Architects - National

North Philadelphia Vest Pocket Park Philadelphia, Pennsylvania

- Merit Award / 1973
American Society of Landscape Architects - National

Amelia Island Master Plan Development Amelia Island, Florida

- Honor Award / 1973
American Society of Landscape Architects - National

Woodlands New Town Montgomery County, Texas

- Special Award, Contribution to a Better Environment / 1974
American Society of Landscape Architects - National

Pardisan Environmental Park Tehran, Iran

- Merit Award / 1974
American Society of Landscape Architects - National

Denver Regional Transportation Plan Denver, Colorado

- Merit Award / 1974
American Society of Landscape Architects - National

Joseph H. Rash Memorial Park Baltimore, Maryland

- Merit Award / 1977
American Society of Landscape Architects - National

Town Center Parks Washington, DC

- Honor Award for Design Excellence / 1978
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Baltimore Inner Harbor Baltimore, Maryland

- Honor Award for Design Excellence / 1978
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Camden Waterfront Park, (Ulysses S. Wiggins Park) Camden, New Jersey

- Merit Award for Design Excellence / 1979
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Amelia Island, Florida

Town Center Parks, Washington, DC

The 1980s

Pratt Boulevard Plaza-Area 4b Baltimore, Maryland

- Honor Award / 1980
*American Society of Landscape Architects
Maryland Chapter*

Harborplace Landscape Baltimore, Maryland

- Honor Award / 1981
American Society of Landscape Architects - National

Jose Marti Riverfront Park Miami, Florida

- Merit Award / 1988
American Society of Landscape Architects - National

Haverford College Landscape Plan Haverford, Pennsylvania

- Merit Award / 1988
American Society of Landscape Architects - National

Kanozan Resort Development Chiba Prefecture, Japan

- Merit Award / 1989
American Society of Landscape Architects - National

"This integrative instinct is at the heart of WRT's groundbreaking work in "designing with nature" which has been the firm's signature since the 1960s. From the early work of Ian McHarg to more recent developments in the techniques of restorative landscapes and green site design, WRT has made critical contributions to the state-of-the-art in environmental regulation in the United States and an expanding appreciation of nature and our environmental responsibilities."

Ruth Durack, AICP
Director
Urban Design Center of Northeast Ohio

Jose Marti, Florida

Kanozan, Japan

The 1990s

Liberty Harbor Jersey City, New Jersey

- Honor Award / 1991
*American Society of Landscape Architects
New Jersey Chapter*
- Presidential Award of Excellence / 1991
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Liberty Hall Corporate Center Union, New Jersey

- Honor Award / 1991
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Becton Dickinson Labware Manufacturing Facility Durham, North Carolina

- Merit Award / 1992
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Oriole Park at Camden Yards Baltimore, Maryland

- First Place, People's Choice Award / 1993
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*
- Honor Award for Design / 1993
American Society of Landscape Architects
- Merit Award for Planning and Urban Design / 1992
American Society of Landscape Architects - National

East Mesa of Balboa Park Precise Plan San Diego, California

- Presidents Award for Planning & Research / 1993
*American Society of Landscape Architects
San Diego Chapter*

Philadelphia Museum of Art Landscape Rehabilitation Plan

- Philadelphia, Pennsylvania**
- Merit Award / 1995
*American Society of Landscape Architects
Pennsylvania/Delaware Chapter*

Falls of the Ohio River Greenway Jeffersonville, Clarkesville & New Albany, Indiana

- Merit Award / 1995
*American Society of Landscape Architects
Indiana Chapter*

Overtown Pedestrian Mall Miami, Florida

- Award of Merit / 1996
*American Society of Landscape Architects
Florida Chapter*

Mission Bay Master Plan Update San Diego, California

- Merit Award, Planning & Urban Design / 1997
*American Society of Landscape Architects
San Diego Chapter*

Fort DeRussy Armed Services Recreation Center Waikiki, Honolulu, Hawaii

- Honor Award, Institution Design / 1997
*American Society of Landscape Architects
San Diego Chapter*
- Landscape of the Year Award
City of Honolulu, 1996

Point Loma Wastewater Treatment Center Enhancement Plan

- San Diego, California
- Merit Award, Art / 1997
*American Society of Landscape Architects
San Diego Chapter*

Liberty Harbor, New Jersey

Oriole Park at Camden Yards, Maryland

Mission Bay, California

Philadelphia Museum of Art, Pennsylvania

The 2000s

Richmond Canal Redevelopment Richmond, Virginia

- Merit Award / 2000
American Society of Landscape Architects, National

Santa Monica Beach Improvement Group Project, (B.I.G.) South Beach & Palisades Park Santa Monica, California

- Honor Award / 2000
*American Society of Landscape Architecture,
San Diego Chapter*
- Merit Award for Design / 2000
*American Society of Landscape Architecture,
San Diego Chapter*
- Design Honor Award / 2002
*American Society of Landscape Architects
National*

Above the Falls – A Master Plan for the Upper Mississippi River Corridor Minneapolis, Minnesota

- Honor Award
American Society of Landscape Architects, Minnesota Chapter

Community Center Park St. Matthews, Kentucky

- Merit Award / 2001
*American Society of Landscape Architects,
National*

Quail Botanical Gardens Encinitas, California

- Honor Award for Planning / 2001
