Lead Sustainable Charge in the Industry and Beyond

ASLA is leading the design and construction industry to promote regenerative practices through its green roof and Chinatown demonstration projects, online sustainability resources, and collaboration on the Sustainable Sites Initiative (SITES).

Raise Awareness of the Profession

ASLA focuses on increasing recognition of the profession within the design and construction industry and among public officials and the general public. The ASLA awards program illustrates the remarkable work of professionals and students, and National Landscape Architecture Month each April engages k-12 students and the general public in activities that educate them about the profession.
